

## Our Partners *in change*

Aga Khan Foundation U.S.A. partners with other like-minded institutions dedicated to international development, sharing lessons learned and collaborating on programs. The Foundation also works together with local and national governments. As an agency of the Aga Khan Development Network, the Foundation coordinates closely with its sister agencies, each of which has experience and expertise in various fields ranging from health and education to architecture, culture, microfinance, disaster reduction, rural development, the promotion of private sector enterprise and the revitalization of historic cities.

*Aga Khan Foundation promotes the enrollment of children with disabilities by making schools more accessible to those with special needs. This young boy from Zanzibar who is unable to walk benefited from the U.S. Agency for International Development's support, when he received a wheel chair bicycle. Now, he is able to attend school every day.*
